

We need to communicate more with each other because obviously we don't know each other according to what I heard.

Self-evaluation was very meaningful and I hope we can explore this further with you related to student achievement. Your personal experiences were interesting, and upon reflection, meaningful. I feel you are caring and trustworthy. THANK YOU.

Extremely pertinent and useful! As mother always saidI know we can implement change.

We are hoping to have a better relationship as we work together to help students' succeed.

Getting to know the personality traits of my colleagues was very enlightening and will be forever useful.

It was a heart wrenching realization that I need to become a better man, and a professional.

Hi Michael. Thank you for your insight and sharing your thoughts and ideas to better our future @ JESS.

Wish there was more time for the collages and greater info on constituents. (oops day 2 info) Day one - well controlled honesty.

I see the positive turnaround you have made on my colleagues. I hope I will see you again in future workshops atschool & ...school PD.

Thank you for being honest - not intimidating in your presentation and helping me to share when I would not have shared or opened up.

The posters were a most revealing activity - you must do this activity all the time.

There is a different atmosphere in the air.

Thank you for sharing your knowledge and expertise!!!!

Thank you very much.

Really enjoyed the openness and honesty and hope that our school will come together as a team to make it a "fantastic school" and us better people and team players.
